Togitatsu no Utare

Kyokanoko Musume Ninin Dojoji

This drama comedy is based on an actual vendetta which took place in the Province of Saguki. Inspired by a real life event from 1827, this piece takes the age-old theme of samurai honour and revenge, and is presented in a refreshingly modern light with whispers of irony. (97min)

Musume Dojoji is the most famous and gorgeous Japanese dance. This version of Ninin Dojoji is performed by two breathtaking beauties, going through a series of dances as in the orthodox Musume Dojoji version. (71min)

During its history of more than 400 years, Kabuki has represented Japan as the ultimate form of stage-art and entertainment.
